

STERILE PROCESSING SEMINAR

BROUGHT TO YOU BY

California Pacific International College

The Chemicals of Decontam

Come learn about the chemicals used in decontam. We will cover an in-depth look at enzymatic detergents, disinfectants, chemicals for automated cleaning, and properly using the chemicals together. The class will begin at 8:30 and run through 1:30 with time for breaks. At the end of this class participants will be awarded 4 CEUs through CBSPD.

When: January 21st 2012
Where: 22612 Foothill Blvd,
Hayward, CA 94541
Times: 8:30am - 1:30pm
Cost: \$50
